- How much will this cost to build and how will you raise the money?
This project is estimated to cost roughly \$3 million dollars. Between insurance, grants and private fundraising, the library has already raised over \$2.7Million. It’s time for that final push!
- When will this start and how long will it take?
We hope to have the foundation poured in November. Depending on how mild the winter, it is projected that we will be able to move into our home on Main street in the winter of 2021.
